

TindahanTrack

Design system visual reference

Purpose

A warm, practical mobile-first system for a sari-sari store owner.
Each token is used consistently in the React and Capacitor interfaces.

 Primary #8F245D	 Primary dark #6F1644	 Success #059669
 Alert #EF4444	 Background #FFF8ED	Surface #FFFFFF
 Text #2D211A	 Muted text #76685E	 Border #E8DCCF

Type scale

Heading

24 px / 1.5 rem / 700 - page and section titles

Body text for readable inventory information

16 px / 1 rem / 400

Labels, stock notes, and supporting details

14 px / 0.875 rem

PHP 6,863.00

JetBrains Mono style for money and quantities

Spacing and shape

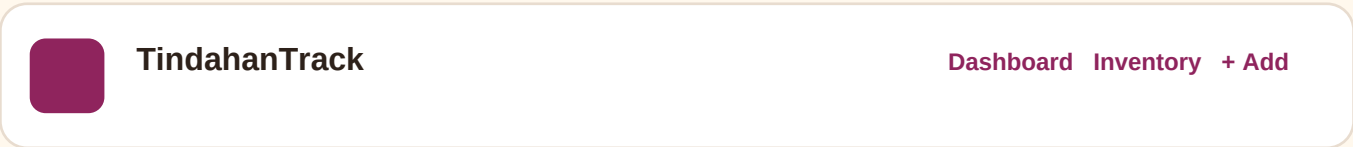

Base unit: 8 px. Use multiples to create calm, repeatable gaps.

			
8px	16px	24px	32px

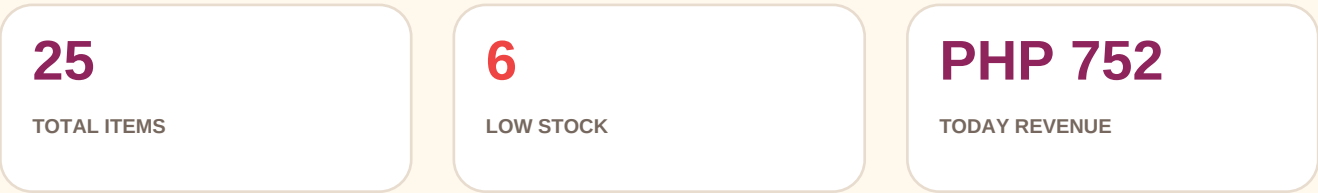

Radius: 6px fields | 12px cards | 20px feature panels | pill filters

Components and responsive behaviour

Reusable component sketches

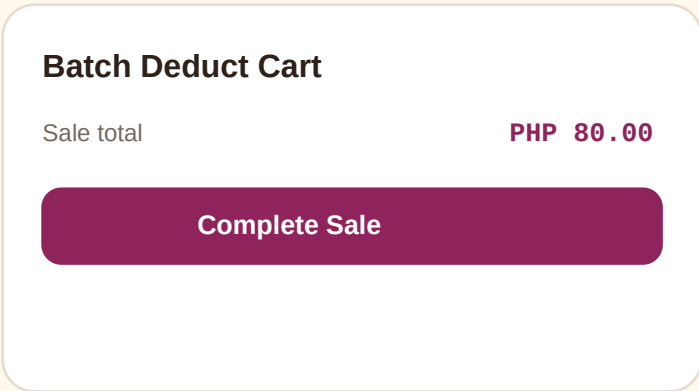

HEADER - BRAND, NAVIGATION, THEME TOGGLE

SUMMARYCARD - REPEATED METRIC PATTERN

PRODUCTCARD - IMAGE, PRICE, STOCK, ACTIONS

QUICKCART - CHECKOUT HIERARCHY AND SAFE FOOTER

Responsive rules

Phone under 768px

Two-column product grid, fixed bottom navigation, full-width cart drawer, touch-sized actions.

Desktop at 768px and above

Desktop header navigation, four-column product grid, wider dashboard sections, no bottom navigation.

Accessibility checks

- Semantic buttons, links, labels, and landmarks
- Visible focus styles and keyboard-reachable controls
- Readable semantic text and background token pairs
- Meaningful image alternatives and decorative-icon handling
